Aflac Dental

Insurance – PPO Plan 2

Aflac gives you something to smile about

Differentiate and compete with a stronger benefits package by delivering standout protection

Dental health is about more than a beautiful smile. Good oral care may improve your overall health, while problems with oral care might have a negative effect.

Dental care is important, but it can also be expensive – even cleaning and X-rays can sometimes strain your budget.

If a checkup reveals more serious issues, the cost can quickly become overwhelming. Dental coverage from Aflac helps give you the peace of mind that comes from knowing you'll have assistance with both routine and unexpected dental expenses.

What does that mean to you as an employer? Quite simply, employees who are worried about dental issues or paying for care may be distracted at work, reducing productivity and work quality. Those with health problems stemming from dental issues may contribute to employee absenteeism and turnover.

You can help by adding Aflac's dental coverage to your company's benefits options.

Unique benefits

- Deductible that decreases over time.
- Maximum carryover benefit.
- No waiting periods for any services.

Aflac Vision Insurance - Plan 2

Your employees' vision is our focus

Set your company apart with standout protection

Vision insurance is valuable to employees who need vision correction, but it also helps pay for regular exams that may detect serious eye problems — including those caused by undiagnosed health conditions such as high blood pressure and diabetes.

What does that mean to you as an employer?

- By making vision insurance available to your employees, you're investing in their health.
- You're also investing in the health of your company, because when eye diseases and other health conditions are detected early, they can be treated before they lead to absenteeism and even turnover.
- Even simple vision problems can reduce productivity because employees may need more time to finish certain tasks. Eye exams can diagnose and correct these issues, boosting productivity and ultimately, your bottom line.

Help protect your employees' financial security and overall health – and set yourself apart from companies that may be competing for the same talent – by adding Aflac's vision coverage to your company's benefits options.
