Wellness & Preventive Services

Preventive benefits for adults

- Abdominal Aortic Aneurysm one-time screening for men of specified ages who have ever smoked
- Alcohol Misuse screening and counseling
- Aspirin use to prevent cardiovascular disease and colorectal cancer for adults 50 to 59 years with a high cardiovascular risk
- Blood Pressure screening
- Cholesterol screening for adults of certain ages or at higher risk
- Colorectal Cancer screening for adults 45 to 75
- Depression screening
- Diabetes (Type 2) screening for adults 40 to 70 years who are overweight or obese
- Diet counseling for adults at higher risk for chronic disease
- Falls prevention (with exercise or physical therapy and vitamin D use) for adults 65 years and over living in a community setting
- Hepatitis B screening for people at high risk
- Hepatitis C screening for adults aged 18 to 79 years
- HIV screening for everyone age 15 to 65, and other ages at increased risk
- PrEP (pre-exposure prophylaxis) HIV prevention medication for HIV-negative adults at high risk for getting HIV through sex or injection drug use
- Immunizations for adults — doses, recommended ages, and recommended populations vary: Chickenpox (Varicella), Diphtheria, Flu (influenza), Hepatitis A, Hepatitis B, Human Papillomavirus (HPV), Measles, Meningococcal, Mumps, Whooping Cough (Pertussis), Pneumococcal, Rubella, Shingles, and Tetanus
- Lung cancer screening for adults 55 to 80 at high risk for lung cancer because they're heavy smokers or have quit in the past 15 years
- Obesity screening and counseling
- Sexually Transmitted Infection (STI) prevention counseling for adults at higher risk
- Statin preventive medication for adults 40 to 75 years at high risk
- Syphilis screening for all adults at higher risk
- Tobacco use screening for all adults and cessation interventions for tobacco users
- Tuberculosis screening for certain adults with symptoms at high risk

Preventive benefits for women

- Bone density screening for all women over age 65 or women aged 64 and younger that have gone through menopause
- Breast cancer genetic test counseling (BRCA) for women at higher risk (counseling only; not testing)
- Breast cancer mammography screenings: every 2 years for women over 50 and older or as recommended by a provider for women 40 to 49 or women at higher risk for breast cancer
- Breast Cancer chemoprevention counseling for women at higher risk
- Breastfeeding comprehensive support and counseling from trained providers, and access to breastfeeding supplies, for pregnant and nursing women
- Birth control: Food and Drug Administration-approved contraceptive methods, sterilization procedures, and patient education and counseling, as prescribed by a health care provider for women with reproductive capacity (not including abortifacient drugs). This does not apply to health plans sponsored by certain exempt "religious employers."
- Cervical Cancer screening: Pap test (also called a Pap smear) for women 21 to 65
- Chlamydia infection screening for younger women and other women at higher risk
- Diabetes screening for women with a history of gestational diabetes who aren't currently pregnant and who haven't been diagnosed with type 2 diabetes before
- Domestic and interpersonal violence screening and counseling for all women

Preventive benefits for women (continued)

- Folic acid supplements for women who may become pregnant
- Gestational diabetes screening for women 24 weeks pregnant (or later) and those at high risk of developing gestational diabetes
- Gonorrhea screening for all women at higher risk
- Hepatitis B screening for pregnant women at their first prenatal visit
- Maternal depression screening for mothers at well-baby visits
- Preeclampsia prevention and screening for pregnant women with high blood pressure
- Rh Incompatibility screening for all pregnant women and follow-up testing for women at higher risk
- Sexually Transmitted Infections counseling for sexually active women
- Expanded tobacco intervention and counseling for all pregnant tobacco users
- Urinary incontinence screening for women yearly
- Urinary tract or other infection screening
- Well-woman visits to get recommended services for women

Preventive benefits for children

- Alcohol, tobacco, and drug use assessments for adolescents
- Autism screening for children at 18 and 24 months
- Behavioral assessments for children: Age 0 to 11 months, 1 to 4 years, 5 to 10 years, 11 to 14 years, 15 to 17 years
- Bilirubin concentration screening for newborns

Tips & Tricks !

1. Choosing a Medical Plan

Lookup Providers in Your Area	Multiplan PHCS
Provider lookup links are provided on each plan page. Click the link and review the in network providers in your area. Some plans will not offer out of network coverage so be mindful of this when selecting a provider. Located at the bottom of your plan summary Quick Links SBC Plan Documents Access Provider Lookup	
Check Which Plan Covers your Prescriptions	PureRx
A link to the plans formulary is included on each plan page. Locate the tier next to your prescription and choose the plan that covers that tier. Discounts on GLP1's are available (see below). Located in the middle of your plan summary Prescription Drug Benefits* Click For PureRx Formulary	 Additional Information

2. While You Wait

Accessing Care without an ID card	Forms
If you do not have your ID card and your effective date has come, please use the following tips for accessing care while you wait. 1. Coverage is active as of your effective date. Employees can receive care even without their ID card in hand. By the time a claim is submitted, coverage will be active and the claim will be processed accordingly. 2. Verify provider participation. Employees should confirm their provider is in-network by using the provider lookup tool and calling the provider's office directly for verification. 3. Inform providers of active coverage. Employees should let their providers know that their coverage is active as of the effective date, and that ID card details are forthcoming. They can follow up with the provider once they receive their ID information. Most providers are familiar with this situation and are typically accommodating. 4. Avoid paying out of pocket. Claims must be submitted by the provider for payment. Reimbursement to members directly is not always available, so employees should not pay upfront for services when it can be avoided. Claims forms are available for reimbursable expenses.	Claims Form - Medical Claims Form - Rx Member FAQ's

3. Once You Have Received Your ID Card

Set Yourself Up to Access Care	Customer Service
1. Download the HealthWallet App - Scan the QR code to the right, or search "The HealthWallet" in your app store - Download the HealthWallet mobile app - Login in with your social security number and date of birth - Access your ID card(s), benefit information, and ancillary vendor services 2. Set Up Telemedicine with Recuro Instructions are available within the HealthWallet App 3. Set Up Additional Services Access to Medmo, Prescriptions and more can also be found in the HealthWallet App	 Do not call until you have your ID card in hand. MEC Plan – 888.505.7724 MV Plan – 844.995.5836 x 2 Dental – 1-800-452-9310 Vision – 1-800-877-7195

[Click for Video Overview](#)

Access to prescriptions, health wallet, Recuro & Medmo may not be available until 5 business days after you have received your **Virtual** ID Card. Once your **Physical** ID card arrives in the mail, all services should be available.

Health Screening Benefit

Included with National Select Hospital Indemnity and Critical Illness Plans

\$50
Paid to
You!

Get Paid to Be Healthy!

You've already made the wise decision to purchase an insurance policy. But did you know this coverage also includes a health screening benefit?
